

**About the speaker:**

**Daira Quinones Preciado ...**

is a leader in the Afro-Colombian displaced movement, who will share her community's story of displacement due to drug war fueled conflict in Colombia. Daira is a musician, storyteller and community organizer who was forced from her home by gunmen. This is an excellent opportunity to bring light to Colombia's internally displaced and connect the dots between military policy and the failed drug war in the U.S. and Latin America.
